CME Outfitters Launching Four-Part Case Series on Bipolar Disorder and Schizophrenia with Live Q&A Sessions

A four-part patient case series on bipolar disorder and schizophrenia will feature two individual live Q&A sessions with expert faculty for each individual activity title.

BETHESDA, Maryland (June 8, 2016) – CME Outfitters (CMEO), a leading accredited provider in continuing medical education, announces a new four-part case series on two of the most common psychiatric disorders, bipolar disorder (BD), and schizophrenia.
